KDP-1 Capsule Polisher

GENERAL:

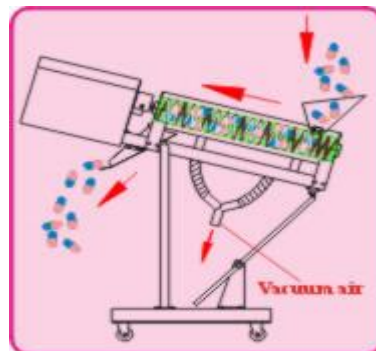

This polishing machine is used after capsules were filled for cleaning the powder attached on the capsules surface, through mechanically rotating brush and attraction of vacuum to take out the external powder.

FEATURES:

1. All stainless shell, body hopper, and guide meeting **G.M.P.** requirements.
2. Easy to operate, excellent performance and trouble free.
3. Gentle, Non-Scratch brush polishing.
4. The inclination of polishing barrel and brush speed are adjustable to adjust treating time for proper polishing.
5. Simple maintenance and easy clearance.
6. High capacity result in very less labor intensive.

APPLICABILITY:

Applicable to all size of capsules #00-0-1-2-3-4-5
